The Airports Authority's four school partners are located throughout the region the Airports serve. We work with each school to determine the programs they need and where we can be of service, including hosting professional development seminars and honoring outstanding students at each school with annual citizenship awards. Throughout the school year, Airports Authority employees volunteer as guest speakers in classrooms, science fair judges and reading mentors. In return, student artwork brightens both Airports, and school choirs and orchestras perform in our terminals—a special treat for passengers, particularly during the holiday season.
